

IT'S A GROUNDBREAKING DAY IN THE NEIGHBORHOOD

Miami – Royal Caribbean International continues its tradition of cruise ship innovation with *Oasis of the Seas*, truly an architectural and nautical marvel with spectacular onboard elements and features never before seen on a cruise ship. The world's largest and most revolutionary cruise ship, *Oasis of the Seas* introduces its unique neighborhood concept – seven main themed areas providing guests with the opportunity to seek out a variety of relevant experiences based on their personal styles, preferences or moods. The following highlights the seven neighborhoods onboard *Oasis of the Seas*:

CENTRAL PARK

Royal Caribbean brings the outdoors in with Central Park, a revolutionary design in which the center of the ship opens to the sky and features lush, tropical grounds spanning more than the length of a football field. An upscale exquisite public gathering place featuring serene pathways, seasonal flower gardens and canopy trees, Central Park provides cruisers with more choices in a unique outdoor space. Combined with an incredible array of retail, entertainment and dining venues, as well as quiet nooks for reading and relaxing, Central Park is one of the ship's most groundbreaking spaces.

- **150 Central Park**, the most exclusive dining venue on the ship, provides an intimate dining experience. Managed by Keriann Von Raesfeld – an award-winning, internationally acclaimed chef who, at 23 years old, holds the title of “Best Young Cook in the World” – the signature restaurant combines leading edge cuisine with the ‘simple elegance’ design concept of trend-setting restaurants from New York to Los Angeles, as well as feature the cruise line's most dynamic wine program, delivering an enhanced dining experience.
- The park's central piazza is the ship's “town square” which at night evolves into a gathering space for alfresco dining and entertainment, including concerts, street performances and strolling musicians.
- Sure to be popular with guests, **Dazzles** is a spectacular venue – spanning three decks – with an expansive floor-to-ceiling window offering breathtaking views of the Boardwalk below. Located near Central Park, the new dance lounge offers a variety of musical experiences ranging from 1940's big band to disco to ballroom evenings. During the day, Dazzles is open for guests to enjoy the view of the bustling activity on the Boardwalk over a drink or to learn a new dance move with a professional dance instructor.
- Accommodations include 324 inward facing balcony staterooms with a view of Central Park.

BOARDWALK

This breathtaking neighborhood was inspired by both the seaside piers that dot the coast of England and the nostalgic boardwalks of yesteryear such as Coney Island. Boardwalk is an area for the entire family to enjoy together, whether young or just young at heart. The elements of the Boardwalk are a dynamic way to engage families in classic fun with a colorful original carousel as well as casual eateries, retail outlets and carnival games. Signature elements of the Boardwalk include:

- A remarkable outdoor venue at the stern of *Oasis of the Seas* with a backdrop of the ocean across the horizon, **AquaTheater** is an amphitheater-style space celebrating water with a full-spectrum of day and night options, serving as a pool by day and a dazzling ocean front theater with water and light shows, and professional aquatic acrobatic and synchronized swimming performances by night. The first of its kind and the most technologically-advanced area of the ship, AquaTheater is a complete sensory experience that plays on the element of surprise, as the latest technology and design features amaze audience members.
- The centerpiece of Boardwalk is a one-of-a-kind carousel – the only carousel at sea. Handcrafted from poplar wood especially for Royal Caribbean, the full-sized, traditional carousel feature 18 figures suspended from stainless steel poles showcasing a time-honored menagerie of animals such as zebras, giraffes and lions, alongside a variety of hand-painted horses including a princess horse and a crowned frog prince. The lead horse, customarily the fanciest horse of the carousel, is adorned with Royal Caribbean logos, while a single chariot serves as a stationary seat for two. The frame of the carousel has a red and golden yellow facade, turn-of-the-century artwork scenery panels, and LED lights that twinkle during the day and night.
- Two signature rock-climbing walls flank the AquaTheater, providing a more unique experience with multiple climbing routes. Each rock wall measures 43 feet tall.

Giant glass-arched skylights, the Crystal Canopies, form a sculptured roof that looks up into Central Park and the sky beyond.

- The Rising Tide Bar – the world’s first moving bar at sea – is an engineering feat that spans three decks and allows cruisers to enjoy a cocktail as they slowly move between Central Park on deck eight and the Royal Promenade on deck five.
- Suspended above the Globe and Atlas Pub, the Atlas Bridge unfurls on hinged hydraulics to create a spectacular, surprise element for guests. The giant copper globe, incorporated into the pub’s facade, “cracks open” as part of its unique construction and extends over the Promenade as a bridge platform serving as a focal point of the Royal Promenade. The bridge is approximately 10 feet above ground and adjacent to the entertainment area for performances.
- Located towards the aft of the Royal Promenade, a mezzanine level allows for sweeping views of the Promenade and features the cruise line’s Schooner Bar and Adventures with Royal Caribbean International – the location of the future cruise sales desk.
