

ROYAL CARIBBEAN INTRODUCES UNRIVALED ACCOMMODATION OPTIONS ON QUANTUM-CLASS SHIPS

Groundbreaking Stateroom Design and First-Ever Virtual Balconies Announced

MIAMI – Royal Caribbean International takes a Quantum leap forward with its next generation of stateroom accommodations on the Quantum class of ships. With guest comfort and convenience in mind, Royal Caribbean debuts the most spacious and advanced accommodations ever, introducing rooms that on average are nine percent larger than those of the cruise line’s Oasis-class ships. Quantum class also will feature extraordinary “firsts at sea” with the introduction of virtual balconies in interior staterooms giving every stateroom a view; new Family-Connected staterooms for multi-generational families; and new Studio staterooms, some with balconies, for single travelers.

Continuing Royal Caribbean’s trend of revolutionizing the cruise vacation experience, *Quantum of the Seas* and *Anthem of the Seas*, offer the largest variety of new staterooms to accommodate a range of guest needs. New Family-Connected staterooms deliver more flexibility for families or friends traveling together, ensuring that even the largest multi-generational group can effortlessly vacation together. These groundbreaking staterooms have customizable layouts and provide separate bedrooms and bathrooms, which means more family time, more quiet time, and more space for the group to relax and enjoy their vacation.

On Quantum class even inside staterooms will be coveted. New virtual balconies, found only on Royal Caribbean, feature expansive real-time views of the ocean and destinations that will bring guests closer to the sights and sounds of the sea.

For suite guests, there are now three Junior Suite categories, some debuting a split bathroom design and featuring the finest spa-inspired amenities. Quantum class also debuts the Family Junior suite, featuring a full bath and a half configuration. Loft Suites are larger and located across the stern of the ship offering the most breathtaking ocean views. Also making their debut on Quantum class are the first Studio staterooms, some with balconies, providing solo guests with personal space to enjoy.

Boasting Royal Caribbean’s new smart design concept, each stateroom regardless of category features contemporary and clever designs with easy-to-use customizable layouts and intuitive larger storage solutions. Set against a backdrop of soothing aesthetics with a color palate inspired by the sea, staterooms are detailed with sophisticated, upscale finishes, USB outlets, and multi-functional furniture intended to meet guests’ personal needs, creating a home away from home.
